**MAMI HAM**, Miami, Fla., March 25.—Confused citizens of Florida, including Carl Fisher and Edward C. Roush, president of the Miami First National Bank, advocate a change in real estate taxes that interests every region.

Their proposal is to eliminate the house in which a man lives up to a certain value in taxes, and tax him, suggesting reasonably that a man should pay taxes where on earth a place that really belongs to him and his children, as well as his wife, the last, he has paid for it.

The suggestion is that the tax be applied to all houses in which a man lives up to a certain value, and that every American be compelled to spend his life paying taxes, with no hope this side of the ocean for getting department.

Great London Banker Gives Opinion to Request From U.S.

WASHINGTON, D. C., March 25.—Sir Reginald McKenna, of the Midland Bank Ltd., London, told the United States House of Representatives Coinage Committee in a letter today he thought prompt international re-operation was "imperative."

CHINESE GROUPS MEET

HARBIN, Manchuria, March 25.—A Peking News Agency correspondent reported that Chinese groups of rebels and insurgents, General Chiang Kai-shek had made overtures for peace just as the Chinese army was launching a movement against his forces.

The Chinese group, led by General Tso Tsien, was converging on the Chinese irregulars in eastern Kirin, and made an offer to surrender to the Japanese command.

SHANGHAI, China, March 25.—Shanghai peace negotiations lagged yesterday, while armies of both sides continued to raiding and skirmishing a few miles outside Shanghai.

Each blamed the other for a clash between outposts near Kating, and had an official explanation of the Chinese version of the Chiangkawang incidents which added to the recent uneasiness.

RANCHER SHOUMAN Threatens Violence Sale Of 101 Ranch

Associated Press  
MARLBORO, Okla., March 25.—Col. Zenas Shouman, who had been shot up in a shotgun in a gesture of defiance yesterday by the 101 Ranchers under the suzerainty of a rancher, threatened to burn down his ranch and barricading himself in the palatial ranch house the elderly rancher had built for him at his sick bed. The auctioneer was asked to statutorily the status of creditors present.

For several hours Col. Miller, who found the rancher dead when he arrived at Harmon, Okla., where he plans to live, refused to permit any one to enter the ranch headquarters.

Giving his final instructions by means of blackboard, Mr. Shouman, who performed many miracles, died in his bed. The auctioneer was soon called the "perfect model."

Mr. Shouman had been seriously ill and was suffering by business reverses resulting in the sale of his ranch and the closing of the 101 Ranch Wild West Show.

Col. Shouman wanted the auction "legal robbery."

For eight years Melvin Shouman, his son, had been observing a vow of silence, while his father had been silent since his arrival at Harmon, N. M., where he plans to live.

Mr. Shouman, a Christian priest of the Zoroastrian faith, and says he is a saint and man. He explained that he is a strict ascetic, and that he sought God and returned to the fold after a long absence.

He also claimed he had the mission of redeeming the world.

Mr. Shouman had said he would go to the United States and then return to his native land.

He also estimated the operation of the railway during the coming 12 months would result in a further deficit of 160,000.

LIBERAL SEES WOE In Trade Policy

Canadian Press  
OTTAWA, Ont., March 25.—In Mackenzie, B.C., Liberal members of Parliament for Vancouver Centre, last night held an audience here to hear the speech of the former Minister of Trade and Commerce, Mr. Ernest C. Drury, who had been a member of the Canadian delegation to the Conference of the Commonwealth at London.

Mr. Drury said that the Canadian delegation had been unable to agree on a new trade policy.

He said: "It is persistent and persistent that the Canadian delegation has been unable to agree on a new trade policy.

That follows the erection of tariff walls as high as any Hawaiian's height, and the argument that Canada must be protected in world markets by the most stringent measures.

But the Canadian delegation, he said, was being kept away from the table because the Canadian trade treatment had been wiped out of the records of the Conference.

BANK INTEREST DRAWS CENSURE IN LEGISLATURE

Associated Press  
EDMONTON, Alta., March 25.—Edmonton and Calgary Members Train Guns on Finances

George H. Webster, Liberal leader, and C. Lionel Gillett, Labor, introduced bills in the legislature attacking the banks for insisting upon the government guaranteeing loans in respect of the purchase of timber with a provision that the timber could not be sold for extracting timber, interest at eight per cent.

Discussion commenced when Premier J. H. Diefenbaker brought down for consideration the bill in committee of the whole the bill to amend the Timber Credit and Advances act.

Mr. Webster said the bill was intended to give the government in respect of timber a guarantee in respect of value advances.

Opposition leaders asked the government to take up the loan in order to have a settlement made.

### MOTHERS' ALLOWANCES

A statement would be welcomed by the public at the present time as to the intentions of the Provincial Government regarding mothers' allowances. The Attorney-General stated in the legislature that those allowances had not been cut, but that it had not been decided they would not be cut. But from the department of the Attorney-General as early as the first of March notices were sent to women in receipt of these allowances that the amounts paid to them would be reduced ten per cent.

Premier Brownlee in the legislature stated that there may at times be a difference between the amount paid as an allowance to a family and the amount paid as direct relief to that family. He said that the Dominion contributes to relief payments, but not to mothers' allowances. This seems to suggest some effort to bring relief payments and allowances in line with perhaps possible cuts the Dominion might be called to make—but under the heading of relief—to supplement mothers' allowances if and where these fall below the level of direct relief grants.

All this leaves the public wondering, and the women who have received the reductions no less worrying. Mothers' allowances were pitifully small when times were good, and the cost of living higher. They are quite insufficient even now to cover some items in the cost of living have fallen. A plain statement of the situation is obviously necessary. Assurance that the women will get, as allowances or as direct relief, as much as they have been getting would meet with general approval.

### PERMANENT "RELIEF"

The "back to the land" trend for unemployment is gaining in popularity in Canada. The Winnipeg city council last week approved a special scheme under which a number of men will be sent back on farms. The Government of Nova Scotia has introduced legislation for putting unemployed coal miners on abandoned farms in that province. The Government of Quebec is considering cities and locate themselves on claims in the new colonization districts. Hon. W. A. Gordon, minister of labor, announces that during the last 14 months 1,000 men have been shifted from towns to farms through the joint action of his department and the railways. These include more than 6,000 families and more than 12,000 single men.

How about helping some Alberta's unemployed to find a place on a farm from which most of them came? Land values are down, here as elsewhere, and farms can be bought at low prices and on easy terms. That is little or nothing to the man who is absolute poverty. But to the one who has a house and lot in town that could be exchanged for a farm, a little help from the relief fund would open the way to self-dependence and future security. Since the municipality and the Dominion must take care of him and his family if he cannot find work in town, it would be better to spend the money on him "on his feet" on a farm than to fritter away, retaining him in idleness and helplessness.

A city or town could not of course assume responsibility for such settlers once they have moved beyond the financial limits and located on farms. Neither could the province be expected to guarantee their future success. But both the town and the province, and the Dominion as well, could help him to find work and money to assist unemployed townpeople in getting on farms where any reasonable amount of assistance would make that possible.

**THE ULTIMATUM TO PARLIAMENT**

The Government at Ottawa has taken the position that it will supply no seed wheat to destitute western farmers unless parliament re-enacts the "blank cheque" legislation and makes this effective until the first of May.

The Opposition quite naturally object to thus handing over unchecked control of the public purse to the Ministers at a time when parliament is in session. They have repeatedly insisted that the Government bring in supply bills for any purpose and for any amount in relation to unemployment and farm relief, and pledged themselves to vote the money without delay.

For whatever reason, the Government refuses to follow this proper and estab-

lished procedure. Instead, the Ministers demand that—with parliament sitting—they shall be given carte blanche to spend whatever sum they see fit, for whatever purpose they choose, in whatever way they choose, through whatever channels they choose, and on what terms and conditions they choose.

The Government could have had a good grain bill passed a month ago if they had asked for it. They did not ask, and have not asked yet. Parliament has been given just one opportunity to provide seed grain, and it has rejected it. The Minister of Agriculture, Mr. D. C. Duggan, reportedly paid out over \$100,000 in fares and expenses to conventions as the U. P. A. was meeting.

Mr. Duggan was one of a group of the State of Washington in 1929 to raise the salaries of the M. L. A. to \$1,000 a year, and he has done that, and that still stands: democracy in action.

These salaries have been paid in state funds in good times since they became law, and the same will be paid in the dead of winter, when time is least valuable.

When I was the Canadian immigration officer in Spokane I was instructed to pay the salaries of the members of the Legislature, and I did so. I lost \$1,000 a year in doing so, because another was our only arbitration board.

There is no record of any western farmer organization since 1886 and earlier that has ever asked for a blank cheque. It would be glad to have my full gubernatorial seal of Washington from the date of its birth to have with me for the last thirty years to prove with here and am away to prove.

### PERSONAL INDEMNITIES

**Editor's Bulletin:**

The members of the legislative assembly of Alberta are well paid, \$1,000 a day while in session. The legislative session is \$1,000 a year, and the government \$3,000. The members convene annually. They have more representation in the Senate of Alberta than Alberta heretofore.

Mr. Duggan, of course, is entitled to a salary of \$1,000 a year, but he does not represent us.

### Use Of Chocolate In Making Dessert

Chocolate is one of the most popular ingredients in dessert making. It is a delicious, useful, and many an otherwise uninteresting dessert attraction. It is good food and contributes many calories to any dish to which it is added.

On the other hand, the chocolate-chocolate mixture seems to have a tendency to melt chocolate over direct heat. Put it in a double boiler or add water to melt chocolate over direct heat. Put it in a double boiler or add water until melted. The paper can be used to strain away the dirt.

You may have had much trouble in melting chocolate in a double boiler.

Try melting the chocolate in the top of a double boiler. Add water to the bottom of the boiler and add the liquid, which should be warm or about the same temperature as the chocolate.

Or you can cut the chocolate into small pieces and add it to a double boiler with cold liquid.

Cover hot but not boiling water over the chocolate and stir until it melts.

It will melt as fast as the liquid heats up. Turn the heat down and stir until the mixture is smooth and perfectly blended.

### GRADS TAKE SECOND TILT OF PLAYOFF

**Best Graduates 80-39 in  
Second Series Game to  
Secure Title**

BY BILL LEWIS

Despite the fact that the offensive power that has carried them to so many victories in the past, J. Percy Page's Commercial Grads won their second-round series game against the senior ladies basketball championship when they defeated the Grads last night at McDonald school gym in the second and final game of the playoffs set by the 80 to 39.

This victory, following their 82-29 win over the Grads in the first round, gave the intermediate students the Alberta crown by a total score of 161 to 128.

The two games were won by 22 points each, while the Grads had to fight through the first round to overcome a strong resistance from the seniors.

**BATTLE FOR CROWN**

The two teams turned in some fine battles throughout the 40 minutes of fast action. Both squads showed great determination and that brought rounds of applause from the fans, who sparkled individually and collectively in the outcome of the struggle.

Every regular member of the Grads figured handily in the contest, while the seniors were equally well supported by their efforts. Margaret MacEachern was the first student to bring down the ball, while Jessie McCormick was right behind her. Jessie was followed by Dorothy Main, Elsie Benne and Della Scott, who also showed a decided interest towards the game, as did the others.

Thrilling Hockey Display Witnessed as Two Teams Open Series of Playdown Battles Leading to N.H.L. Championship

BY WALLACE VANCE  
CANADIAN PRESS WRITER

MONTREAL, March 25.—Excitement was celebrated with some complicity by the Canadiens today. The colorful red-sweated champions beat Lester Patrick's New York Rangers 4-3 here last night in a brilliant exhibition of the National Hockey League playdown series.

**PLAY IN MONTREAL AGAIN ON SATURDAY**

Leaders of the Canadian and American teams, respectively, the two best teams in the N.H.L., met and then moved on to New York, where the two teams will meet again Saturday evening.

Saints' Glitter Sunday, night, was the last night of the season, with the game to be played in New York Saturday afternoon.

There was no let-up in the game here last night, the first item on the National Hockey League playdown series.

Both teams had to go to battle to get the puck, and the game was a hard-fought one.
